NetLink NBN Management Pte. Ltd., in its capacity as trustee-manager of NetLink NBN Trust (“**Trustee-Manager**”), makes reference to the prospectus of NetLink NBN Trust dated 10 July 2017 where it was disclosed that there was a fibre service interruption incident affecting Tanjong Rhu on 13 December 2016 caused by an unintended splicing of a new secondary cable segment to the egress cable of a secondary cabinet (“**Incident**”), and that as at the date of the Prospectus, investigations by the Info-communications Media Development Authority (“**IMDA**”) for breach of the service restoration timeframe stipulated in the Telecom Service Resiliency Code (“**TSR Code**”) were ongoing.

Further details may be found on IMDA’s website at <https://www.imda.gov.sg/regulations-licensing-and-consultations/frameworks-and-policies/competition-management/enforcement-decisions/determinations-and-enforcement>.

The Trustee-Manager has enhanced its operational procedures to prevent a recurrence of such breach and will continue to review and enhance its capabilities, particularly in the area of service restoration.

The Trustee-Manager does not expect the financial penalty to have any material impact on the net tangible asset per unit and distribution per unit of NetLink NBN Trust for the financial year ending 31 March 2018.
